The Peoples' Friendship University of Russia (RUDN University), with the cooperation of the Steklov Mathematical Institute of the Russian Academy of Sciences and the Lomonosov Moscow State University, is organizing the 9th International Conference on Differential and Functional Differential Equations, June 28 – July 5, 2022. The Conference is honored to be a satellite of the International Congress of Mathematicians 2022, July 6–14. The scientific program will consist of invited 45-minute lectures, 30-minute lectures, and 20-minute communications.

The conference is planned to be organized in the offline format. However, according to the situation with the pandemic, the online participation might be also considered. The conference will be devoted to classical topics of the theory of differential equations and different kinds of nonlocal interactions:

- ordinary differential equations,
- dynamical systems,
- partial differential equations,
- semigroups of operators,
- nonlocal spatio-temporal systems,
- functional differential equations,
- applications.
